Detailed Action

This is the second Office Action corresponding to amendment filed June 30, 2005. The application contains 11 claims. Claims 2 and 4 had been cancelled. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Drawings

The drawings are objected to for the reasons set forth in Draftsperson's attached PTO-948. Correction is required.

Claim Rejections - 35 USC § 102

Claims 1 and 5 are rejected under 35 U.S.C. 102(b) as being anticipated by Schuler (Pat No 4,379,578). The patent to Schuler discloses a device comprising a lower portion including a continuous ring of material defining an aperture, and a side member extending from said lower portion terminating on a bent lip (18) directly above the aperture capable of hanging a spray bottle coupled thereto.

Claim Rejections - 35 USC § 103

Claims 3, 8 and 11 are rejected under 35 U.S.C. 103(a) as being unpatentable over Shuler in view of Barts.

Art Unit: 3632

The patent to Barts discloses a bottle holder having a lower end, and upper lip substantially directly above the lower end, and a side member having curved back surface (for example 23). It would have been obvious to one skilled in the art at the time the invention was made to have provided the holder shown by Shuler with a curved back as shown by Barts for a variety of reasons; for example, reinforcing, aesthetics, etc.

Claims 6, 7, 9, 10 and 12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Shuler.

The material from which a device is made is considered as a matter of engineering choice having no patentable significance.

Allowable Subject Matter

Claim 13 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Spies (D 302,527) and Adam et al. (D 440,496) show devices which structure may read on some of the instant claims.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
